

VNS1020 Wireless Controller

The VNS1020 wireless controller is specifically designed to add wireless control capabilities to any electrical device that requires 12V DC power such as strobe lights, sirens and others. This VNS1020 is the perfect solution that enable wireless remote control in situations where hard-wired approach is impractical or too costly.

- **Converts ordinary electrical devices to wireless**
- **Built-in switch controlled 12V DC power**
- **Designed for indoor and outdoor installations**
- **Group and zone paging capabilities**
- **Compact and easy to install**
- **Operates from 12V DC (using provided power adaptor)**

Specifications:

Dimensions:	7.5"W x 5.1"H x 2.7"D	Color:	White
Weight:	0.85 lb., (w/battery 2.10 lb.)	Frequency:	148-174Mhz, 400-470MHz
Power:	90-240VAC, 50/60Hz 30-Watt 12V / 3A Power Adaptor	Paging format:	POCSAG, Narrow band
Operating Temperature:	32° to 120°F	Data Baud rate:	512 or 1200 BPS
Humidity:	0%-95% Non-condensing	Receiver Sensitivity:	10uV/M
Packaging:	Weatherproof polycarbonate for indoor and outdoor applications	Channel spacing	12.5KHz
		Paging addresses:	Six capcodes
		Limited Warranty	One-year Parts and Labor
