

VNS2083 - High-Power Public Address Speaker

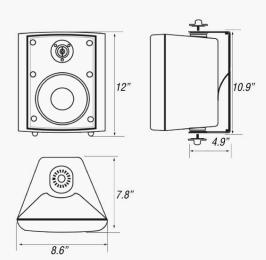

The VNS2083 High-Power Public Address Speaker is designed to provide intelligible voice paging and tone signaling for indoor and outdoor bell and public address system applications.

The VNS2083 is controlled by the **VNS2200** wireless audio/visual controller. This makes it an ideal solution for applications where a hard-wired speaker is impractical, or when a simple, reliable and cost-effective alternative solution is required when being compared to traditional wired PA systems.

The VNS2083 includes a mounting bracket.

Key Features:

- Weather-Resistant Design for Indoor and Outdoor Installations
- Up to 60W Continuous Power
- 6.5" 2-Way Speaker System
- Impact Resistant Enclosure
- Robust Mounting Clamps
- Swivel-Mount Bracket
- Speaker Cable can Extend Up to 150' from Controller
