

VS638 Magnetic Mount Antenna

The VS638 is a compact magnetic mount antenna that specifically designed for indoor and outdoor radio paging applications. This antenna comes with a magnetic base, making it ideal for mobile uses and easy indoor installations.

- **UHF or VHF Frequency Band**
- **3dB Gain**
- **Maximum Power of 150 Watt**
- **Easy To Install**

Specifications:

Dimensions:	3.5" high with 3" magnetic base	Cable termination:	BNC connector
Weight:	1.45 lb.	Frequency Range:	148-174Mhz, 400-470MHz
Maximum power:	Up to 150 Watt	Pull strength:	>90 lb.
Operating Temperature:	-40° to 140°F	Mounting base:	3/4" brass magnetic base
Gain:	3dB	Mounting:	For optimum coverage, the antenna need to be mount on any magnetic metal surface with a minimum 2'x2' area size.
Polarization:	Vertical		
VSWR:	<1.5:1		
Impedance:	50 Ohm		
Cable length:	12'
