

WPT-I223 - Compact Wireless 900 MHz Pendant Transmitter

WPRP-1575

Key Features:

- One Programmable ID
- 300' - 1,000' Range (Increased Using Data Repeater)
- Transmission Indicator
- Long-life Single Lithium Battery
- Water-Resistant
- Low Battery Alert
- Includes Pendant Necklace and Belt Clip

The **WPT-I223 Compact Wireless 900MHz Pendant Transmitter** is designed to be used with a main wireless paging controller, such as the **VS4800** or **VNS5100**. It is designed to generate automated text, audio or visual alerts to pagers, alphanumeric displays, speakers, strobe lights, e-mail and telephone subscribers.

When the WPT-I223 button is pressed, a signal is sent to a wireless receiver connected to the main paging controller. The signal is received and compared to the programming in the main paging controller's database. If a match is found, an automated alert will be generated according to the programming.

The WPT-I223 can generate an automated message to report low battery status. In addition, the WPT-I223 offers full wireless supervision from the main paging controller. This provides the system administrator with a detailed functionality status of each installed device.

This water-resistant pendant includes a belt clip and pendant necklace.

Options, Accessories and Complementary Products:

Part Number	Description
WPRP-1575	Wireless 900 MHz Repeater
WPA-1001	Velcro Wrist Strap

Specifications:

Dimensions	1.9" x 2.5" x 0.72" (W x H x D)	Activation Type	Momentary Switch
