

Pendant to Strobe Light System

Key Features:

- **Activate Any Nearby Strobe Lights**
- **Easy Installation**
- **Necessary for the Hearing Impaired**
- **Amber, Red, Blue and Clear Strobe Light Colors**
- **Supports Unlimited Strobe Lights**
- **Low-Cost System**

The Visiplex Pendant to Strobe Light System is a cost-efficient solution to install a visual notification system at any facility.

When activated, the pendant's signal will be received by the nearby VNS2200 controllers. The VNS2200 will then activate the attached strobe lights. The system supports an unlimited amount of strobe lights.

The VNS2200 controller connects directly to an electrical outlet from its Power port, then directly to the strobe lights from its Strobe Light port, allowing for a fast and easy installation process.
