

VNS2245

4-PORT POE INJECTOR

The VNS2245 4-Port POE Injector provides reliable, centralized power distribution to up to eight Visiplex devices over CAT-5, CAT-6, or CAT-7 network cabling—up to 300 feet away. Ideal for installations where AC outlets are limited or costly to install, this injector simplifies deployments of Visiplex wireless paging speakers, 2-way intercom stations, beacon lights, and LED message boards.

Low-Voltage Power Injector Wiring Diagram

Parameter	Description
Power	Input: 100-240 VAC 50/60Hz, Output: 48V 2.5A 120Watt
Dimensions	Injector module: 3.9" x 1.9" x 1.2" (W x H x D) Power Adapter: 6.4" x 2.7" x 1.3"
Weight	Injector module: 3.0oz, Power Adapter: 16.5oz.
