

VNS2259

POE SPLITTER & BATTERY PACK

The VNS2259 is a Power over Ethernet splitter that can provide power remotely to a Visiplex device over CAT-5, CAT-6 or CAT-7 wiring up to 320 feet away. This device can be used to only provide power, or if using existing active network cable, to split the data (to the networked device) and power (to the Visiplex device).

Parameter	Description
Power	Input: POE DC voltage, Output: 12V 2A 24Watt
Dimensions	75mm x 28mm x 25mm (W x H x D)
Weight	6.4oz
