# AlertWave

VPR-02 - Wireless Dome Light

The VPR-02 Wireless Dome Light is designed to provide visual status indications and is controlled by wireless commands sent from a main wireless paging controller, such as the **VS4800**.

The VPR-02 supports 6 activation codes (ID's) for individual activation or membership activation in 5 separate groups. Creating groups provides the ability to activate multiple devices using a single transmission from the main paging controller.

Each of the VPR-02 lenses can be controlled individually and set to On, Off or Flash mode.

Key Features:

• **Lights Set to On, Off or Flash Mode**

• **Wall and Ceiling Mount**
