

VS637 - Magnetic Mount Antenna

The **VS637 Magnetic Mount Antenna** is designed with an ABS plastic antenna and brass magnetic base.

The VS637 antenna is optimal for indoor single-story radio paging with low power transmitters.

The VS637 antenna's diversity, frequency agility, low visibility, wide bandwidth and low angle radiation pattern makes it superior when compared to traditional gain antennas.

Key Features:

- UHF Frequency Band
- Maximum Power of 10W (UHF)
- Easy Installation

Options, Accessories and Complementary Products:

Part Number	Description
VS661	RG-58U Coax RF Transmission Line

Specifications:

	Antenna Dimensions (W x H)	Antenna Weight		
Dimensions & Weight	450 - 470 MHz: 50mm x 80mm	3.84 ounces	Wind Survival	125 MPH
			VSWR	< 2.1 Max
Maximum Power	450 - 470 MHz: 10 Watts		Impedance	50 Ohm
			Pull Strength	> 90 lbs
Cable Length	10 ft.		Polarization	Vertical
			Color	Black
Material	Brass Magnetic Base, ABS Plastic Antenna		Limited Warranty	One Year Parts and Labor
