

VS660 - RG-8/U Coax RF Transmission Line Assembly

The VS660 RG-8/U Coax RF Transmission Line Assembly is designed as a non-Plenum low-loss RG-8/U coax cable suitable for indoor and outdoor applications.

The VS660 is constructed from a bare copper conductor, semi-solid polyethylene insulation, tinned copper braid shield (90% coverage) and a PVC jacket.

The VS660 is available at increments of 25 feet.

Key Features:

- Low Loss and Attenuation
- Indoor and Outdoor Applications
- Easy Installation

Specifications:

Dimensions	0.405" (Diameter)	Usage	Indoor and Outdoor
Weight	0.1 lb / 1 ft.	Impedance	50 Ohms
Color	Black	Nominal Attenuation (db/100ft)	1.4 at 100MHz, 1.8 at 200MHz, 2.6 at 400MHz
Operating Temperature	-40° - 176°F	Maximum Power Rating (w)	1149 at 100MHz, 894 at 200MHz, 619 at 400MHz
Maximum Recommended Pulling Tension	300 lbs.	Plenum Rated	No
Minimum Bend Radius	6"	Limited Warranty	One Year Parts and Labor
